MEMORANDUM OF UNDERSTANDING
between the
City of Bangkok, The Kingdom of Thailand
and the
City of Brisbane, Queensland, Australia

This agreement confirms the discussions held between representatives of the Government of the City of Bangkok led by His Excellency, Governor Dr. Bhichit Rattakul and representatives of the Government of the City of Brisbane led by The Right Honorable the Lord Mayor of Brisbane James Soorley.

* Both cities will work together in a spirit of friendship and cooperation to promote closer economic and tourist relationship between Thailand and Australia.
* Both cities will work to create opportunities in reciprocal business and trade investment, joint ventures and economic ties between the two communities.
* The Governments of both cities agree to investigate a staff exchange programme. Precise details of the exchange are to be confirmed by both parties in letters of exchange.
* Both cities agree to explore cooperation, in a wide range of diverse fields, specifically in the area of education and environment.
* Both cities agree to encourage understanding and awareness of our cities and nations’ different sports.
* The Governments of both cities will enhance the greater understanding of the cities’ respective cultures.
* Both Governments agree that this initial memorandum of understanding is the first stage of developing closer relations between the two cities and establishment of a Sister City Relationship within twelve months of the date of its signing.

The City of Brisbane and the City of Bangkok believe that the encouragement and development of friendly relations between the citizens of our two cities will enhance the greater understanding of our respective cultures and in turn promote good will and increase cooperation and exchange in business, trade and investment.

The Right Honorable
Lord Mayor James Soorley
CITY OF BRISBANE

His Excellency
Governor Dr. Bhichit Rattakul
CITY OF BANGKOK

Declared on May 7, 1997.

Declared on May 7, 1997.
MEMORANDUM OF UNDERSTANDING
between the
BANGKOK METROPOLITAN ADMINISTRATION
and
BRISBANE CITY ENTERPRISES
with respect to
COMPUTERISED ROAD MAINTENANCE SYSTEMS

This Memorandum of Understanding (MOU) sets out the framework under which the Bangkok Metropolitan Administration (BMA) joins in a collaborative relationship with Brisbane City Enterprises (BCE) to develop projects in the area of Computerised Road Maintenance Systems. Through this MOU the parties agree to the following:

1. BMA and BCE will jointly work together to develop a Computerised Road Maintenance System (CRMS) for BMA which will be based on BCE technology.

2. The main CRMS project responsibilities of the parties will be as follows:
   2.1 BMA in conjunction with BCE will define the scope of the CRMS and select pilot sites for the application of the system;
   2.2 BMA will allocate a team of road maintenance staff to work alongside BCE staff in developing the CRMS;
   2.3 BCE will supply staff to the CRMS Project, to work with BMA counterparts to develop, procure, install and commission the system;
   2.4 BCE will supply, under license, the necessary software and the hardware specifications for the CRMS.

3. BMA and BCE will supply resources and technology into the joint projects on a mutually-agreed commercial basis.

4. BCE will provide support and training to BMA staff to create a pool of BMA expertise which can be applied to other project sites in a sustainable manner.

5. The partnership between BMA and BCE in the area of road maintenance may be extended to working in other regions of Thailand and in selected neighbouring countries such as Cambodia, Laos, Vietnam and Myanmar.

with respect to
COMPUTERISED TRAFFIC CONTROL

This Memorandum of Understanding (MOU) sets out the framework under which the Bangkok Metropolitan Administration (BMA) joins in a collaborative relationship with Brisbane City Enterprises (BCE) to develop projects in the area of Computerised Traffic Control Systems. Through this MOU the parties agree to the following:

1. BMA and BCE will jointly implement an Area Traffic Control System (ATCS) in a region of Bangkok nominated by the BMA.

2. The ATCS will be developed by the BMA and BCE to suit local conditions and will be based on the Brisbane’s BLISS computerised traffic control system.

3. The main ATCS Project responsibilities of the parties will be as follows:
   3.1 BMA will select an appropriate area in Bangkok which will comprise a number of suitable intersections for the installation of the ATCS;
   3.2 BMA will allocate a team of traffic control staff to work alongside BCE staff in developing the system;
   3.3 BCE will supply staff to the ATCS Project, to work with BMA counterparts to develop, procure, install and commission the system;
   3.4 BCE will supply, under license, the necessary software and the hardware specifications for the ATCS.

4. BMA and BCE will supply resources and technology into the joint projects on mutually-agreed commercial basis.

5. BCE will provide support and training to BMA staff to create a pool of BMA expertise which can be applied to other project sites in a sustainable manner.

6. The partnership between BMA and BCE in the area of traffic control may be extended to working in other regions of Thailand and in selected neighbouring countries such as Cambodia, Laos, Vietnam and Myanmar.
